

CAREER OBJECTIVE

A passionate AIML engineering student with strong interest in full-stack development and cloud technologies. Seeking an entry-level software engineering role to enhance skills, gain industry exposure, and contribute to scalable real-world applications.

EDUCATION

- Vivekananda College of Engineering and Technology** Puttur, Dakshina Kannada
B.E. in Artificial Intelligence and Machine Learning (CGPA: 9.09) 2021 – 2025

WORK EXPERIENCE

- Associate Software Engineer** Yaticorp India Pvt Ltd
Application Development Dec 2025 – Present
Working on client-facing and internal applications involving frontend development using React, HTML, and CSS, backend REST API development with Node.js and MongoDB, deployment support using Railway, fixing production issues, improving application performance, and collaborating with cross-functional teams.
- Marketing Automation Engineer** Yaticorp India Pvt Ltd
Digital Marketing & Automation June 2025 – Dec 2025
Managing social media platforms including Instagram, Facebook, LinkedIn, and YouTube, creating and optimizing content campaigns, executing SEO strategies using Google Search Console and SEMrush, planning and optimizing paid ad campaigns, and generating performance reports using Google Analytics and Meta Business Suite.
- Technical Coordinator** Yaticorp India Pvt Ltd
Project Coordination Sep 2025 – Dec 2025
Coordinating technical activities across company projects by assigning and tracking tasks using Zoho Projects, acting as a bridge between development, marketing, and operations teams, monitoring timelines and deliverables, and supporting issue resolution.

INTERNSHIP EXPERIENCE

- AWS & DevOps + AI Intern** MicroDegree
Cloud, DevOps and AI Internship Program Nov 2026 – Ongoing
 - Worked with AWS cloud services including EC2, S3, and IAM for application deployment.
 - Built and managed containerized applications using Docker.
 - Learned Kubernetes basics for container orchestration and scaling.
 - Implemented CI/CD pipelines using Jenkins for automated build and deployment.
 - Practiced DevOps workflows including version control, deployment automation, and monitoring.
- MongoDB Internship** Qspiders Campus Connect
Backend Development Internship Oct 2023 – Nov 2023
 - Developed a Library Management System using MongoDB for efficient data storage.
 - Built backend services using Flask to manage authentication and data operations.
 - Implemented modules for book inventory management, member records, and borrowing history.
 - Designed responsive interfaces for managing library operations and data efficiently.

TECHNICAL SKILLS

- Programming Languages:** Python, JavaScript, TypeScript
- Frontend Development:** HTML, CSS, React, Tailwind CSS, Bootstrap
- Backend & APIs:** Node.js, Express.js, REST APIs
- Databases:** MongoDB, MySQL

- **Cloud Platforms:** AWS, Vercel, Render, Railway, Cloudflare R2
- **DevOps & Containerization:** Docker, Kubernetes (K8s), Jenkins, CI/CD Pipelines, Linux
- **Version Control:** Git, GitHub
- **Tools & Platforms:** Zoho Projects, Zoho CRM, Zoho Social, Figma, WordPress
- **SEO & Analytics:** Google Analytics (GA4), Google Search Console, SEMrush, Meta Business Suite

PROJECTS

- **AcademyPro – Advanced Learning Management System** 2025
Designed and developed a full-stack LMS with student and admin portals, authentication, role-based access control (RBAC), REST APIs, MongoDB integration, and cloud deployment using Vercel, Render, and Cloudflare R2.
- **FloraAI – Medicinal Plant Identification System** Nov 2024 – Apr 2025
Developed an AI-based mobile application for real-time medicinal plant identification using deep learning, with NLP-driven responses via Retrieval-Augmented Generation (RAG) and a scalable backend deployed on Render.

CERTIFICATIONS

- AWS Solutions Architect - MicroDegree January 2026
- DevOps Engineer Certification – MicroDegree March 2026
- AWS & DevOps Internship Program – MicroDegree March 2026
